COMPLIANT QUALIFICATION MANAGEMENT

IT'S NOT A GAME.

IMQ Qualification Management Solution

Features

- Configurable, built-for-purpose, cloud-based technology
- Intuitive, role-based views of process
- Compiles data from multiple systems to provide efficient and reliable worker qualification records
- 21 CFR Part 11 and Annex 11 Compliant
- Offers a streamlined mapping of an individual's education, work experience, skills, and training to quantitative and qualitative job tasks
- Flexible dashboards and reporting capabilities

Benefits

- Reduces risk relating to manual tasks and paper-based processes that result in non-compliance
- Enables teams to respond to audit inquiries with speed and accuracy
- Supports automated, sustainable, data-driven compliance.
- Helps teams align with organizational compliance goals

Reduce risk & errors   Increase efficiency   Improve compliance

Implementation

The 2030 team partners with our customers to understand their priorities, any unique challenges, as well as the environment in which they are operating. Our deep understanding of GxP processes and technologies informs our disciplined approach to the design and successful implementation of IMQ. We recognize the rigorous documentation and testing requirements that regulated industries demand. We help customers realize the value of their technology investment.
